

Whirlpool

DESIGNED TO DELIGHT

SUPREME ECO

State-of-the-art technology,
unrivalled Eco care

The Whirlpool Brand Lifestyle

Since its founding on November 11, 1911, Whirlpool Corporation has pursued excellence for generations, helping people care for their homes with perfect efficiency so that they can focus on what really matters – their families and lives. As the flagship brand of the company, Whirlpool is the most accessible brand, providing products with purposeful, easy-to-use technology to help keep consumers' homes running smoothly

1911-1929	1940s	1950s	1960s-70s	1980s-90s	1990s	2010	NOW
 <p>1911: Upton Machine Co. founded in St. Joseph, Michigan, to produce motor-driven wringer washers.</p> <p>1916: First order of washers sold to Sears, Roebuck and Co.</p> <p>1929: Upton Machine Co. merges with Nineteen Hundred Washer Co. to form Nineteen Hundred Corporation.</p>	 <p>1948: Sale of first auto-washer through Sears, Roebuck and Co.</p> <p>1950: The Nineteen Hundred Corporation was renamed the Whirlpool Corporation and added automatic dryers to the company's product line.</p>	 <p>Whirlpool expanded manufacturing locations in U.S., producing spare parts, refrigerators, dryers and washers.</p> <p>Entered partnership with Brazil's Brasmotor S.A., parent of appliance maker Multibras S.A. Philips to enter Europe.</p> <p>Purchased KitchenAid.</p> <p>Global presence expanded throughout Europe, Latin America, Asia and parts of Africa.</p> <p>Opened small appliance plant and range plant in US.</p>	 <p>Whirlpool has been reducing water and energy usage, lowering greenhouse gas emissions and collaborating on the WEEE Directive.</p> <p>Today, Whirlpool has earned an astounding 22 ENERGY STAR® awards from the U.S. EPA.</p>	 <p>Whirlpool Corporation announces a \$20 million investment in building a new LEED-certified manufacturing facility in Cleveland, Tennessee - the single largest investment Whirlpool Corporation has made anywhere in the world-which "reinforces our commitment to the competitiveness of U.S. manufacturing."</p>	 <p>Whirlpool Corporation celebrates over 100 years of innovation and continues its groundbreaking R&D efforts every day.</p>

At Whirlpool we believe in the glory of making everyday count just the way every homemaker does. We believe that delight lies in getting the everyday tasks done beyond one's expectations.

We believe that advanced technology should always deliver superior performance. For isn't that what technology is all about, to surpass expectations every time and leave you with a sense of delight.

At Whirlpool we are purposeful and never lose sight of what performance means and how it should be delivered. We design home appliances with advanced technology which are intelligent, intuitive and innovative.

Our home appliances provide an ever-present assurance of better than expected results in everyday tasks at home. And when one experiences this every time, it simply makes moments in home life even more enjoyable. That's what we are committed to deliver.

Whirlpool. Designed to Delight

Convenience to Lifestyle

At Whirlpool, we believe in creating experiences that complement your lifestyle for ultimate and effortless convenience. This is the driving inspiration behind our latest range of Supreme Eco top load washers. Powered by the **6TH SENSE Technology**, our washer automatically allocates the right amount of resources and delivers tailored treatments for your garments to provide the best wash performance. This intuitive technology guarantees up to 50% savings on electricity, water, time, and fuss-free washing. Now, you can dedicate more time doing the things you enjoy with the ones you love, thanks to Whirlpool's washers, bringing you the ultimate convenience to your lifestyle.

Innovative, Intuitive and Intelligent 6TH SENSE Technology

Weight

During spinning, intelligent sensors detect the weight of the load, ensuring clothes are evenly spread before adjusting the spin speed accordingly.

Temperature

During warm wash mode, water temperature is automatically measured and controlled for the perfect wash.

Soil Level

The sensors automatically sense soil level and degree of dirtiness to allocate the right amount of water for efficient and effective washing.

Speed

During washing and spinning, our state-of-the-art technology controls the speed of the revolving drum. The speed control is based on the load and program to maximise wash efficiency without compromising on laundry care.

Water Level

Sensors allocate the amount of water to ensure optimum water level at all times.

Bubbles

After washing, sensors detect the amount of bubbles and allocate rinse cycles accordingly.

			50%[†] savings on electricity, water and time

A silent performance that outclasses, and a durable efficiency that lasts

ZENTechnology

The revolutionary Zen Direct Drive Inverter Technology is changing the way you wash, forever. Built to provide an exceptionally quiet yet high performance wash, you can now enjoy the convenience of doing the laundry any time without fear of disturbing or disrupting the still of the night.

ZEN Direct Drive Inverter Motor

The ZEN Direct Drive Inverter Motor

The Supreme Eco Top Load Washer's ZEN Direct Drive Inverter Motor connects directly to the drum to not only offer excellent sound management, but also deliver outstanding performance in laundry care. The drum movement and varying speed caters to various fabric types and laundry load, while ensuring efficient use of resources.

BENEFITS

Enjoy the Silence

With less vibration and less frictional noise powered by ZENTechnology and the advanced ZEN Direct Drive Inverter Motor, you enjoy peace, quiet and high energy savings, without compromising on the efficiency and standard of wash performance.

Environmentally-Friendly Washing

Together with 6TH SENSE Technology, the ZEN Direct Drive Inverter Motor detects laundry load and provides an optimal control of motor speed ensuring efficient power usage. This results in minimal electricity wastage.

Reliability & Durability

With less vibration and more stability, the ZEN Direct Drive Inverter Motor is more durable and long-lasting, coming with a 10-year warranty for guaranteed reliability you can trust.

Hygiene Care

Performance you can trust,
Cleanliness that will last

StainWash+

The StainWash+ feature heats water up to 45°C and removes up to 25 kinds of stubborn stains. It also effectively dissolves detergent for better wash performance. Additionally, the StainWash+ helps sterilize clothes and gets rid of allergens, making it especially suitable for sensitive skin prone to allergies or for washing baby clothes and linens.

Professional Stain Removal

Stain Removal Test

Tub Clean

This feature ensures that dirt and stains are thoroughly removed from all corners of the washing machine, while preventing proliferation of bacterial growth.

Light on resources Powerful in wash performance

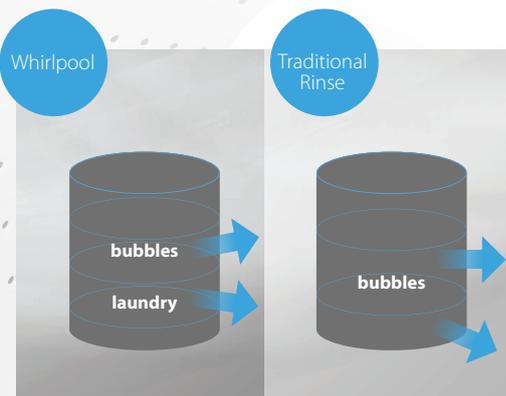

Spray Wash

Water is recirculated from the bottom of the tub to increase the utilization of water during the rinse cycle and further speeds up the detergent dissolution. This increases the washing and rinsing efficiency by 20% and provides an even wash performance while improving water conservation by 30%.

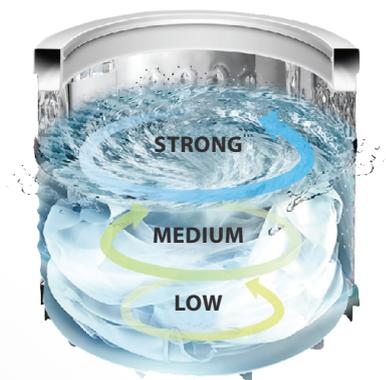

Super Soak

The ultra-sonic technology dissolves detergent quickly and thoroughly, while removing stains effortlessly. At 20,000 high-frequency vibrations per second, you can expect ultimate pre-wash efficiency and minimised water usage during the rinse cycle.

Extra Rinse

This feature effectively gets rid of surface stains and bubble foam, while ensuring extra clean wash performance without leaving behind additional residue at the end of each wash cycle.

Variable Wave

With varying wash and rinse settings depending on the fabric material, the Variable Wave feature achieves a more effective wash performance with precise removal of stains and strong removal of dirt.

Fabric Care

Gentle care for your clothes

Gentle Handwash

This gentle 4-step procedure (consisting of rubbing, twisting, spinning and vibrating) feels just like a handwash, perfect for delicate clothing that needs just a little more tender, loving care. The process speeds up the soaking and dissolving of detergent to remove stubborn stains, giving you the assurance that your clothes are cleaner than ever. The detergent penetrates clothing fiber to eliminate dirt and provide deep cleaning, all without damaging your favorite clothing.

WOOLMARK

Woolmark Apparel Care

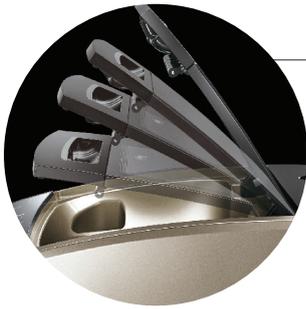

The Woolmark Apparel Care label is a stamp of approval from the world's leading authority on wool care. It gives consumers the assurance that certified products provide the best and most gentle of care for woollen clothes. With your Woolmark Apparel Care certified Whirlpool washing machine, you never have to worry about having to handwash your delicate woollen clothing or making another trip to the drycleaners.

The perfect union of form and function

Style Meets Innovation and Design

Ergonomic design with thoughtful features – designed for ultimate convenience, designed to delight. Now you can wash effortlessly, with class.

Soft Closing

Lengthens lifespan of the machine through safe, soft and gentle lid closing

Wide Tempered Glass

Completely durable with the ability to withstand high pressure and resist scratches

High Visibility, Electrostatic LED Touch Display Control Panel

Stylish and easy-to-see display with pictogram buttons for a wide range of washing options

Easy Wide Opening

Clear visibility of laundry accompanied by ease of loading and unloading of large and bulky items

Large Capacity

Convenience of washing a single load of up to 12kg, including bulky loads like bedsheets and towels

Tub Light

High visibility with an intuitive light that illuminates the drum upon opening of door

Convenience at your fingertips

Experience the future of Smart Technologies in your home today

6TH SENSE Smart Program

Have the flexibility to manage your desired wash completion time for the programs between 15 - 90 minutes while maintaining wash performance.

Smart Memory

This feature stores your last selected choice, including wash parameters or settings, for ultimate convenience every single day.

Auto Dosing System

The machine automatically detects the optimum amount of detergent to be dispensed based on load, water level and soil level of your laundry. This prevents under or over dosing, and further protects both sensitive skin and the environment, saving up to 12 liters of detergent annually.

Eco Energy Saving Mode

This feature allows the machine to go into standby mode. All buttons are locked and the backlight automatically turns off 10 seconds after start up (excluding Child Lock and 6TH SENSE Smart slider).

Delay Time

Enjoy the freedom and flexibility to preset your wash to finish up to 24 hours later to fit your schedule.

10 Water Level Selection

For optimum and economical use of water with effective results, you can now select from 10 different water levels to match your wash load.

Pre Wash

This feature enables soiled or delicate clothes to be pre-washed manually, for efficient and water-saving wash performance.

Specifications

SUPREME ECO WVMD1208AHG

Product Dimension WxDxH (mm): 601 x 632 x 999
EAN Code: 4897068761891

- Maximum Capacity: 12 KG
- ZEN Direct Drive Inverter
- Water Efficiency Rating (Singapore WELS): 3 Ticks

Features

- 6TH SENSE Technology
- 6TH SENSE Smart One Key
- Warm Wash (Built-In Heater)
- Auto Dosing System
