

## DESIGN THAT EXUDES CONFIDENCE & CLASS

The 6<sup>TH</sup> SENSE **JUMBOFLEXI** is the culmination of form and function. Exquisitely crafted both exterior and interior in understated elegance that complement the most modern kitchen. The unique slim fit design makes them deceptively small on the outside but provides an astounding 80cm wide spacious storage on the inside, giving you endless possibilities to your storage experience.

## REFRESH YOUR SENSES

Introducing the latest range of refrigerator - the 6<sup>TH</sup> SENSE **JUMBOFLEXI**, boosts a whopping storage capacity of up to 591 litres while conforming to the 61cm counter depth to fit into every kitchen design seamlessly. The first French door bottom in our line of refrigerator, the 6<sup>TH</sup> SENSE **JUMBOFLEXI** is designed from ground up with the most advanced refrigeration technology to deliver Jumbo storage capacity without the bulky footprint.

# TECHNOLOGY THAT DRIVES SUPERIOR PERFORMANCE

The latest 6<sup>TH</sup> SENSE **JUMBOFLEXI** takes food preservation to a new level with the 6<sup>TH</sup> SENSE intelligent technology, powered by 6 smart sensors and intuitive functionalities to create the best environment for keeping your food fresh.

The 6<sup>TH</sup> SENSE **FreshLock** intuitively detects any temperature fluctuation and automatically restores the freezer compartment to the optimal setting for preserving fresh food longer and in the most natural way.

Within the freezer compartment, the 6<sup>TH</sup> SENSE **FreezeLock** minimizes temperature variations to reduce 5 times\* lesser freezer burn. The lesser amount of blood water loss, the maximum amount of nutrients, taste and flavour is preserved in frozen food.

After frozen for 12 days

Blood Water Loss 3ml  
Retain Maximum Nutrients

Blood Water loss 17ml  
Loss of Nutrients

\*Result based on Whirlpool internal lab testing.

Catering to different needs and food choices, the smart 6<sup>TH</sup> SENSE **FlexiFreeze** convertible freezer compartments allows you to customize your temperature settings that is ideal for what you are storing. Choose from three temperatures for selective freezing requirements:

### SoftFreeze (-7°C):

Avoid defrosting process for frozen food you will eat within a week. You can place food directly from the freezer to pan.

### MildFreeze (-12°C):

Prevent hard, frozen ice cream. Gives the best original taste of the dessert.

### DeepFreeze (-18°C):

Preserve the nutritional value of food for longer.

## FLEXIBILITY FOR EVERYDAY CONVENIENCE

The 6<sup>TH</sup> SENSE **JUMBOFLEXI** is ergonomically designed with multiple compartments and adjustable shelves to provide limitless storage configurations that helps you organize your food neatly. The fridge surfaces are built with food contact materials that conforms to the strictest TUV standards for a complete peace of mind in food safety and hygiene.

With the Fast Freeze and Fast Cool features, there is no need to wait for your food to freeze or chill. At a push of a button, the freezing or chilling process will be accelerated to better seal in the quality and nutritional value of your food.
