Eliminates 99.99%
Bacteria and Allergens
with Hybrid Steam OxyCare

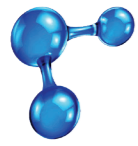

STEAM

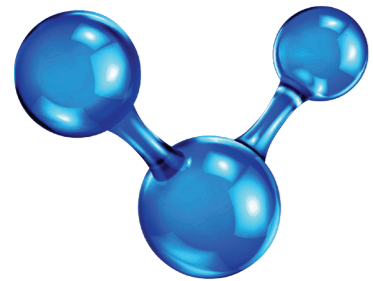

OXYCARE

Ultimate Cleaning with Oxygen and Steam

Our latest **Supreme OxyCare** washing machines use the natural power of oxygen and steam to provide complete sanitization and sterilization to your clothes. Bacteria and impurities are eliminated naturally, providing a full hygienic wash for your fabrics.

Eliminates 99.99% of bacteria and allergens with breakthrough technology, Hybrid Steam OxyCare

The latest breakthrough technology, **Hybrid Steam OxyCare**, incorporates both the natural power of oxygen and steam for deep cleaning and sterilization without chemicals to eliminate 99.99%¹ of bacteria and allergens.

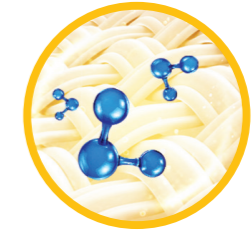

WASH

Removes daily dirt and stains from laundry

STEAM

Removes bacteria and allergens, refreshes and de-wrinkles fabrics

OXYCARE

Oxygen gas molecules kills remaining bacteria and allergens

How does OxyCare work?

The in-built generator produces special oxygen gas molecules to penetrate fabrics and to effectively kill bacteria and allergens. These gas molecules are converted back to oxygen after the wash cycle and then discharged naturally, leaving no residues on your clean fabrics.

Over 20 Sterilization Combinations

The Supreme OxyCare washer offers an enhanced hygienic experience with over 20 different sterilization combinations. Steam and OxyCare can be applied together or selected individually with suitable programs to clean and refresh your clothes with or without water, depending on your needs.

STEAM

OXYCARE

¹ Tested by CHEARI, based on GB 21551.5-2010. Removes up to 99.99% Escherichia coli, Staphylococcus aureus, Dust mite with Mixed program add on Hybrid Steam option.

SANITIZE WITHOUT WASHING WITH AIR REFRESH

Remove odors and bacteria without water wash

Our unique **Air Refresh program** provides different options to refresh and remove odors and bacteria on your clothes and beddings, or even to disinfect your personal belongings without any washing.

Sterilize almost everything without water wash

The **Air Refresh program and Hybrid option** uses Steam and OxyCare to sanitize and remove odors and wrinkles on your clothes.

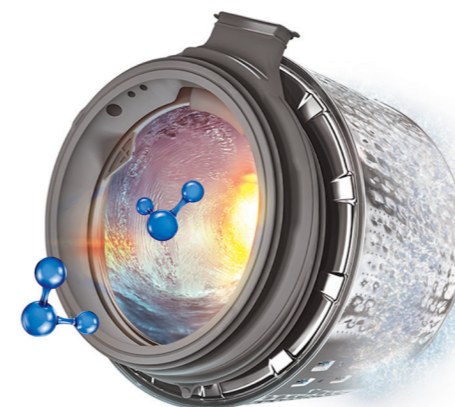

Perfect for bedding items such as pillows and bedsheets, and clothes that have been kept in your wardrobe for a long time, so that you can have ready-to-wear clothes in a split second.

Disinfect personal belongings without steam, water, and tumble

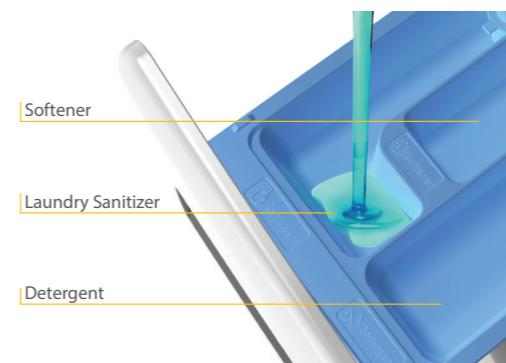

Want to disinfect your personal belongings? Choose the **Air Refresh program with OxyCare option**. Sterilizing with oxygen is gentle and thorough as it kills bacteria without using steam, water, and tumbling, ensuring no damage to your personal belongings and delicate items.

EFFECTIVE STERILIZATION FOR SAFETY & COMFORT

Complete drum sterilization at 90°C with OxyCare

The cleanliness of your washer is important for maintaining high standards of household hygiene. The **Drum Clean program** delivers total cleanliness for your washers by sterilizing the drum at 90°C and then with OxyCare for complete disinfection of dirt, bacteria, and build-up of residues.

Eliminates bacteria with Sanitize Wash

Sanitize Wash program incorporates both sanitizer and softener into the rinse cycle through the dedicated Laundry Sanitizer compartment, sanitizing your clothes at a low temperature wash, while keeping them fresh and soft without damage.

01 Detergent

Removes dirt and grime

02 Laundry Sanitizer

Kills bacteria and sanitizes your clothes

03 Softener

Rinse out remaining residues and leaves your fabrics soft and fresh

Prevents 99% bacteria and mold growth

The **Antimicrobial Drawer and Drum Bellow** is injected with an anti-bacterial agent during production to help prevent 99%² bacteria and mold growth even after long-term usage.

Eliminates allergens with Allergy Care

Heated up to 90°C, the **Allergy Care program** is designed to eliminate allergens and dust mites. Ensure your laundry is pristinely cleaned for delicate skins.

² Tested by TÜV SÜD, Chinese Academy of Sciences for Escherichia coli, Staphylococcus aureus.

QUIET, CONVENIENT AND POWERFUL CLEANING

Silent washing with superior performance

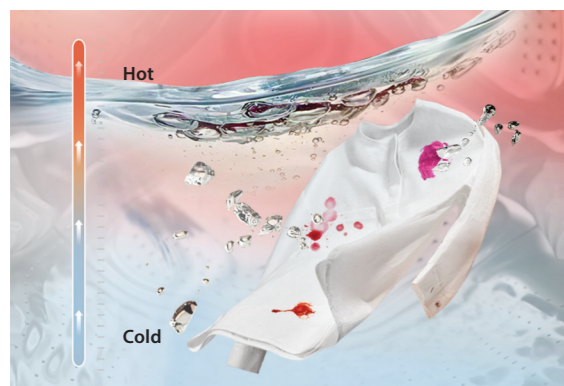

The **ZEN Direct Drive Inverter** is a high-performance direct drive motor that rotates the drum directly.

Coupled with the 6TH SENSE intuitive technology that uses intelligent sensors, it ensures a more precise set of drum movements during operations, delivering quiet yet outstanding performance.

Featuring a cutting-edge and robust design, the ZEN body structure and side panels reduce noise propagation, so you can do your laundry at any time without any noise disturbance.

QUICK AND EASY LAUNDRY DAYS

Hassle-free Stain Cleaning

Having trouble cleaning multiple stains at one go? Our dedicated **Stain Clean program** is designed to effectively remove up to 25 tough stains.

In addition, the **Quick Stain function** helps you speedily clean off common stains from wine, food, or cosmetics in as quick as 40 minutes³.

Both options use specific water temperature and water level, wash and rinse times, and spin power to deal with each type of stain.

Wash 7kg daily load in 44 minutes

Pressed for time or need your laundry to be done fast? Simply utilise the **Rapid option** to quickly wash your 7kg daily laundry load in 44 minutes⁵.

Clean laundry with a quick press

Whirlpool's 6TH SENSE intuitive technology in the **Auto Start⁶ function** senses your laundry load and automatically selects a suitable wash program with a 3-second press on the knob.

Fresh laundry even if you forget to unload

No need to worry about unloading your laundry immediately after it's done. **Final Care⁴ function** releases steam periodically while keeping the drum tumbling gently for up to 6 hours after the cycle ends, keeping your clothes fresh and wrinkle-free.

Add clothes at any time

Missed out a shirt? Simply pause your wash cycle to add⁷ your clothes at any time without compromising on wash performance with the **Add Clothes option**.

³ Based on Duvet program with red wine stain option.

⁴ Automatic function when Hybrid or Steam option is chosen. To stop the function, press Start/Pause button or the knob.

⁵ Based on Mixed Program

⁶ Not recommended for delicate garments.

⁷ Only when Drum temperature is below 50°C.
