Features & Benefits

	<5.0kW Wok Burners> The 2 wok burners provide optimal heat retention and distributes more evenly to ensure superior cooking results.
	<Dual Flame Wok Burner Control> Independently adjust the inner and outer rings for total control - use the inner flame for delicate simmering or ignite both for the high-intensity heat required to lock in the crunch of a perfect stir-fry.
	<Flame Failure Safety Device> The flame failure safety device shuts off gas supply after the flame has been cut off, preventing gas leakage such as the flame extinguishes or when the burner has not been properly turned off.
	<Cast-iron Pan Support> To facilitate various styles of cooking and flexibility to accommodate a wider range of cooking utensils
